

Enabling real-time, low cost payments for you and your customers

With

Why PayID?

More affordable

- Eliminate transaction surcharges.
- Reduce your cost of sale.
- Pay a low, flat per-transaction fee, not a percentage of your sale

Real-time settlement

- Receive your funds in real-time.
- Transactions settle 24/7, 365 days a year.
- Eliminate time consuming reconciliation processes.

Simple Integration

- Simple integration to any sales channel.
- Azupay's three simple APIs control all aspects of the payment.
- Initiate the payment with a QR Code.

Secure

- Leverage your customers bank's existing security process.
- All transactions are pre-validated.
- Real-time NPP fraud monitoring and detection.

Why Azupay?

Single-Use PayID

For one-off purchases and bill payments, Azupay generates a unique PayID for each transaction.

Static Recycled

For regular purchases like utility bills or insurance premiums, Azupay offers a customer-specific PayID option.

Static Open PayID

For wallet top-ups or other ad-hoc payments.

Join the innovators modernising their payments with Azupay's real-time solutions
