

Pay for Business

powered by azupay

Delight your customers with PayID for Business

An instant payment

If a payment needs to be made immediately, offer a 24/7 365 days a year, account-to-account alternative that doesn't drive your customers toward debt.

A safer way to pay

Your customers login securely to their online banking or banking app to make a PayID payment. There is no safer way to pay.

It's inclusive

Let paying your business be accessible to everyone. All that your customers need is an Australian bank account. No plastic, no downloads and no sign-up.

It's consistent

Online, over the counter, on a bill or invoice - no matter the channel - your customers will always have the same payment experience with your business.

More affordable

Our low flat fee means that you don't have to pass on surcharges to your customers. No hidden fees goes a long way to building brand trust.

PayID for Business solves your payment problems

Eliminate Chargebacks

With PayID for Business, chargebacks are a thing of the past, allowing your business to stay in control of your refunds and returns policy.

Instant Reconciliation

PayID for Business allocates a unique PayID to every transaction, delivering straight through reconciliation and eliminating the need to manually reconcile against open items.

Eliminate Invalid Payments

PayID for Business validates every payment before it's received, ensuring the payment amount is correct every time.

Reduce Your Cost of Sale

With a simple low, flat transaction fee, PayID for Business reduces your transaction costs when compared to credit or debit cards.

Get Paid Faster

All transactions using PayID for Business settle instantly, every day of the year, improving cash flow and keeping your business running 24x7.

Flexible Payment Options

PayID for Business works at your online checkout, on bills and invoices and over the counter providing a consistent payment experience every time.
